The International Union of Food Science and Technology (IUFoST) is the global scientific organisation representing over 300,000 food scientists and technologists in industry, government and academia from more than 75 countries. IUFoST is the elected global scientific representative of Food Science and Technology in ICSU (International Council for Science) and the Union represents food science and technology to other international organisations such as WHO, FAO, UNDP, UNIDO and others.

The International Academy of Food Science and Technology (IAFoST) is a statutory component of IUFoST. IUFoST has five regional groupings, ALACCTA representing Central and South America, EFFoST representing Europe, FIFSTA representing the ASEAN countries, MENAFoST representing the Middle East and North Africa, and WAAFoST representing West Africa.

IUFoST's focus is food safety, food security, education and professionalism. IUFoST organises world food congresses, among many other activities, to stimulate the ongoing exchange of knowledge in those scientific disciplines and technologies relating to the expansion, improvement, distribution and conservation of the world's food supply.
