Food Innovations for the Sustainable Development Goals

Presented by the Early Career Scientist Section of IUFoST/IAFoST

This First International Symposium organised by the Early Career Scientist Section of IUFoST/IAFoST aims to share the exciting research accomplishments of early career and young scientists as well as foster important discussions on the contributions of food science innovations in meeting the Zero Hunger and other relevant SDGs.

ANET BEZEK JAMBRAK
Laboratory for sustainable development, Faculty of Food Technology, University of Zagreb, Croatia.
Presentation Title: Sustainable Non-Thermal Processing

AZIS BOING SITANGGANG
Department of Food Science and Technology, IPB University, Bogor, Indonesia.
Presentation Title: Automated bench-scale enzymatic membrane reactor: Development and applications in aqueous and organic reactions

MATTHEW MOORE
Department of Food Science, University of Massachusetts, USA.
Presentation Title: Advances in the Detection, and Control of Human Noroviruses

ZHIHONG YU
Food, Nutrition and Health Program, University of British Columbia and Department of Food Science and Agricultural Chemistry, McGill University, Canada.
Presentation Title: Flexible nano-cellulose-based bionanocomposite film for intelligent packaging

AMANDA NAAUM
Precision Biomonitoring, Inc. Canada
Presentation Title: On-Site Approaches in Food Safety, Security and Authenticity

JAY KANT YADAV
Department of Biotechnology, School of Life Sciences, Central University of Rajasthan, India.
Presentation Title: The anticipated nutritional and health risks associated with protein-rich foods: with special reference to milk and soy proteins

TONNA A. ANYASI
Agro-processing and Postharvest Technologies Division, Agricultural Research Council - Tropical and subtropical Crops, Nelspruit, South Africa.
Presentation Title: Sustainable Food Processing for Enhanced Nutrition and Food Security

ADRIANO COSTA DE CAMARGO
Laboratory of Antioxidants, Nutrition and Food Technology Institute, University of Chile.
Presentation Title: Prospection of Bioactive Compounds: A Matter of Sustainable Innovation and Public Health
